

Refining NIST Workforce Recommendations for Social Science Research

Specific Topic

Role that social science research can play in enhancing NIST's current research program on NEHRP related projects.

Questions and Data Needs:

- What activities is NIST currently pursuing in this area?
- Who are the personnel that have expertise in the social sciences and what projects are the currently working on?
- What future projects does NIST foresee which will involve social science research?
- What are potential funding sources for hiring more qualified personnel in social science research?
